

M&L AVIARIES

1833 Rue Des Outardes
St. Lazare, Quebec J7T 3G9

HEALTH GUARANTEE

M&L Aviaries will never knowingly deliver a baby that is not completely healthy. All weaned babies are guaranteed against pre-existing conditions; such as bacterial disorders, viruses or deformities. We do not consider a slight growth of gram negative bacteria to be disease, but recognize that this is a stress related reaction to being shipped and/or change in the environment. This guarantee is valid for 30 days after the bird has been received. Any diagnosis of a pre-existing condition must be made by a qualified avian veterinarian within 48 hours of receipt. In the event that the bird is diagnosed with a pre-existing condition that is non treatable and seriously effects its health or well being as determined by the examining vet, then M&L Aviaries agrees, at its discretion, and upon the timely return of the bird by the buyer, to either refund the entire purchase price to buyer, or replace with another bird of the same species, sex and similar age (as soon as one becomes available). This guarantee is void if the leg band has been removed.

In the event that the buyer fails to have the bird examined by a qualified avian veterinarian within the stated 48 hour period after delivery, then the buyer understands and agrees that the sale is one of "as is" condition.

Quarantine is the buyers responsibility and should be done so for a minimum of 30 days if other birds are present in the household. Failure to do so will void this guarantee.

In the event of death, the bird must be placed in a plastic bag and refrigerated (not frozen) and brought to a qualified avian veterinarian for necropsy and histopathology within 24 hours after death. Bird type and band number must be on necropsy report. If all requirements of this guarantee are met and the necropsy shows that the death is a result originating from M&L Aviaries, we will, at our discretion, either replace the bird (as soon as one becomes available) or refund the full purchase price. We do not assume any liability for veterinary expenses that the buyer may incur.
